

Protect your 340B Program with Visante's expert, easy-to-use Web-based application

Covered entities struggle to manage 340B Program compliance due to evolving and expanding regulations and lack of staff or expertise. Consequences of noncompliance range from monetary penalties to the devastating possibility of Program Ineligibility. Visante's *Compliance Tool: 340B* can go a long way in helping you to protect your 340B Program now and in the future.

Stay on top of complex, expanding regulations

Oversight of the 340B Program has historically been complex, and in 2016 the rules and regulations will change yet again. Staying on top of constantly changing requirements is an important priority, and yet many covered entities struggle to keep up. Our *Compliance Tool: 340B* provides the most current compliance information and self-audit tool so you can stay current and fulfill your self-audit requirements quickly and easily. You will also benefit from keeping compliance documentation organized and easily accessible.

Quick to start, easy to use

Visante's 340B experts have teamed up with PharmacyStars to create a tool that gives you information you need, when you need it, in a remarkably simple application. You and your staff will appreciate how easy it is to get started with *Compliance Tool: 340B* and to manage it over time. You'll see immediate improvements in your ability to conduct self-audits and maintain compliance on a daily basis, and you'll enjoy peace of mind that comes with confidence in your compliance position.

Access to industry-leading compliance experts

Our 340B team includes the industry's most experienced experts with an excellent track record of results. Together, we've supported more than 120 different covered entities with compliance reviews, audit preparation and other expert services. We've packaged much of our expertise into the *Compliance Tool: 340B*. We are also available to you for expanded consulting services should the need arise.

Can you keep up with market changes?

- HRSA expanding audit requirements & applying more penalties/sanctions
- 340B eligibility rules becoming more complicated
- Pharmaceutical manufacturers requesting more oversight
- Covered entities increasingly concerned about audits

Protect your program

"Keeping up with 340B program requirements was keeping me up at night. But Visante's compliance tool has given me a lot of confidence in our program's compliance and long-term outlook."

— Hospital executive

“Just finished our Q1 2018 Tasks with great success. Pharmacy Stars Compliance Tool: 340B is working well for our organization and makes us re-think the compliance continuum.”

— Joe Moss, 340B Program Coordinator at
University Hospitals in Cleveland

Meet your self-audit requirements and stay current in Visante’s easy-to-use, Web-based application.

Visante Compliance Tool: 340B — Fulfill your self-audit requirement

HRSA’s expanding audit requirements include regular self-audits that can be completed and managed with the *Compliance Tool: 340B*:

- Directed audit tasks based on quarterly and annual schedule
- Central repository for all 340B-related documents, including transactional audits
- High-level dashboard showing audit performance and program risk levels
- Supported by industry experts with updates on program rule changes
- Minimal risk of poor audit outcomes

Visante is your compliance expert

Through technology and consulting services, Visante is your resource to improve and manage your 340B Program compliance position. In addition to *Compliance Tool: 340B*, we offer a wide range of services to support your compliance goals:

- Comprehensive 340B Program Assessment and Integrity Audit Readiness Review
