

Visante Consulting Services:  
**Managed Care & Government Programs**  
Employer Group Waiver Plans (EGWP)

## Visante helps plans and PBMs achieve optimal CMS compliance with EGWP

As the number of EGWPs grows, plans and Prescription Benefit Managers (PBMs) want greater support to understand and manage compliance with CMS regulations, guidance and memos. EGWPs with a co-administered wrap plan experience yet another level of complication. Visante is prepared to help plans and PBMs navigate the complex, changing regulations associated with EGWP, including those plans that offer a wrap benefit.

**In our experience, many plans do not accurately adjudicate claims based on the most current CMS guidance.**

» **Evolving compliance.**

### Visante is on top of developing compliance regulations

Visante consultants provide the most current and advanced expertise in Centers for Medicare and Medicaid Services (CMS) regulations. We monitor all guidance, memos, industry group discussions, and other communications to keep you abreast of evolving and important information. Our experts translate this knowledge into actionable recommendations for your organization.

### Visante consultants are Medicare Part D specialists with significant EGWP expertise

Each of our experts brings an average of 20 years of experience to your organization – and we put it to work for you. Our consultants provide specialized knowledge in EGWP (with and without a wrap plan), employer plans, prescription benefit management, and countless aspects of Medicare Part D. We help you optimize beneficiary access while maintaining compliance.

### Complexity requires Visante expertise and experience

As CMS continues to publish new guidance, memos, and other regulatory communications, the difficulty of staying well-informed and putting information to work increases significantly. Visante can provide this essential service, giving you peace of mind and allowing your staff to focus on meeting business objectives.

#### EGWP CMS Compliance Checklist:

- Adjudication logic
- Medicare Part B & D
- Transition fills
- Coverage determination (before and after wrap applied)
- Co-administered wrap effects

» **Prepare now.**

EGWP compliance is a continuously moving target. As new guidance is issued, CMS regulations become increasingly complex and difficult to manage. We take the guess work out and help plans to navigate these changes, avoiding potential costly penalties and enforcement actions. ”

Lisa Howard, SVP, Medicare Compliance, Visante

## Achieve operational excellence – Visante consultants take you to the next level of compliance

### » Assess Employer Group Waiver Plan (EGWP) Adjudication Rules and Plan Edits –

#### RECOMMENDED NOW

Visante consultants provide a high-level assessment of your current adjudication rules, plan edits, and benefit design. This will support appropriate coverage determinations, utilization management, and claim pricing to ensure beneficiaries receive a suitable level of coverage and plan design is compliant. Visante offers a comprehensive menu of assessment options to support your budget needs while targeting risk areas. Our assessments show risk points and areas where you are not in complete compliance and offer specific recommendations that will correct problem areas.

### » Assess Prescription Drug Events (PDEs)

With the complexity of the pricing calculations, PDE pricing fields can be inaccurate while not being rejected by CMS, which is further complicated with co-administered wrap plan calculations. Visante consultants will conduct an assessment of your PDE submissions. Using logic checks, we will determine whether your pricing fields align with the benefit stage. Visante will conduct a detailed pricing review to check the accuracy of this essential information. Results are comprehensive and include many claim scenarios, such as claims straddling benefit stages, claims in the coverage gap, and LIS claims.

### » Other consultative services

Visante experts provide consulting services across many areas of Medicare Part D. We are prepared to assist you in compliance in Formulary and Benefit Administration (FA); First Tier, Downstream and Related Entity (FDR), and Coverage Determination, Appeal and Grievances (CDAG), PBM oversight, ad hoc compliance and operational support, Compliance Program Effectiveness (CPE), and overall Medicare Part D operational challenges and strategies. Our goal is operational excellence across your Medicare Part D program and we look forward to the opportunity to assist you.

#### EGWP assessments may include:

- Adjudication logic review
- Transition fills
- Medicare Parts B & D
- Pricing validations
- Benefit requirements validation
- Formulary compliance
- Ad hoc compliance and operational support

» Flexible and customized solutions.
